PRABIN POUDEL

Computer Engineering Student | Full-Stack & Mobile Development | Applied AI

Bharatpur, Chitwan, Nepal | +977 9744235965 | prabinpoudel702@gmail.com
GitHub: Prabin-Poudel-1 | LinkedIn | Portfolio

Computer Engineering student building mobile and web applications with Flutter, React, Spring Boot, and relational databases. Project experience includes offline SOS workflows, AI model training, on-device inference, and constraint-based travel planning.

TECHNICAL SKILLS

Languages: Java, Dart, Python, JavaScript, TypeScript, C, C++
Frontend & mobile: Flutter, Riverpod, React, HTML, CSS, Vite
Backend & data: Spring Boot, Spring Data JPA, REST APIs, JWT, PostgreSQL, SQLite
AI & tools: Model training, YOLO / Ultralytics, TensorFlow Lite / LiteRT, Git, Docker, Leaflet

SELECTED PROJECTS

Rescuer Sathi GitHub

- Trained three AI models within Rescuer Sathi for injury detection, injury classification, and burn-severity classification; integrated TensorFlow Lite models into a Flutter app for on-device inference. Experimental screening prototype.
- Implemented offline SOS persistence with an encrypted local queue and automatic retry, plus encrypted Android Nearby relay support with field validation pending.
- Connected verified-rescuer workflows and consent-based medical profiles to a Spring Boot, JWT, and PostgreSQL backend.

Chitwan Care GitHub

- Built a Flutter waste-reporting app with on-device LiteRT detection, confidence scores, bounding boxes, and GPS-tagged photo reports.
- Implemented Spring Boot workflows for admin review, department assignment, report history, and cleanup evidence, backed by PostgreSQL.

Smart University Management System GitHub

- Developed modules for students, teachers, courses, enrollments, notices, and users with Java, Spring Boot, and PostgreSQL; added student ID cards and PDF generation.

Chitwan Plus / Bharatpur Pulse GitHub

- Built a React and TypeScript itinerary planner with Leaflet maps and a Spring Boot backend, balancing interests, budget, time, and opening windows using sample travel data.
- Added saved itineraries, availability-driven replacement previews, and Gemini-powered trip assistance.

EXPERIENCE

Content Writing Intern (Technology) | Routine of Nepal Banda (Tech)

June 2025 - November 2025
Researched, wrote, and edited technology articles and news; collaborated with the editorial team to improve accuracy and clarity.

EDUCATION

Bachelor in Computer Engineering | Ongoing
United Technical College, Pokhara University - Bharatpur, Chitwan

High School (10+2) | 2022 - 2024 | GPA: 3.7
Polar Star English Boarding School - Bharatpur, Chitwan

LANGUAGES

Nepali (Native) | English (Fluent)
